## Report from KCPP

### **Master Seminar in Prishtina 13.-15.05.2011 „Positive Children and Youth Psychotherapy“**

This was the sixth seminar of Master Course in PP where was organized from Kosovo Center for Positive Psychotherapy.

The place where organized training seminar was office in KCPP in Prishtina.

The seminar was conducted by International Master Trainer, Dr. Med. Nawid Peseschkian and with organizing from Enver Cesko

In the seminar were 27 participants, mostly from Kosova, four for Albania, and one from Macedonia, mainly psychologists, family medical doctor, psychiatrists and pedagogue.

The general theme of the seminar was “**Positive Children and Youth Psychotherapy**”. It was seventh module in Master Course where the main goal was to present child and youth positive psychotherapy...

The following sub topics were presented by each day.

#### **13.05.2011, 12.00 – 19.00**

- The role of the family today in the world community
- Relationships between children and parents and between each others
- Positive concept of education
- Communication between two souls

#### **14.05.2011, 9.00 – 18.00**

- What is normality in Positive Psychotherapy
- Traditional and Positive interpretation of different concepts
- Different phases of development of today children and youth
- Four aspects that influence in development of children

**15.05. 2011, 9.00 – 18.00**

- Three stages of interaction
- What influences the child
- Four ways of expressing the feelings
- 13 aspects for a Positive Child and Adolescent Family Therapy
- Feedback of the participants for the seminar.

During the each sessions it has practical exercise with small groups in relationship, communication, expressing the feelings and showing the amount of different capabilities. Participant had chance to practice exercise with toys how looks like positions of family members with different possibilities of replacements.

Feedbacks of students for the learned subjects during three days of training seminar was showed that all participants were very much satisfied especially they learned using of different ways and models of well known techniques of PP using in child and adolescent therapy.

Our next seminar will be on June with local trainer Enver Cesko, about relationship between patient and therapist in psychotherapy session..

The report is following with some photos of the group at the end of the seminar.
