

Report Training Seminar Master Course in Kyiv, Ukraine 20-22 May 2011

Consulting - Information Centre «POSITUM» in the period from 20-22 May 2011, organized another module Master Course «**First Interview, diagnostics, and techniques .»**

. The seminar was trainer of Master course Tatiana Kalashnik, co- trainer Svetlana Otenko (trainer Basic Course of Positive Psychotherapy).

The group consisted of 12 participants. The first higher education participants - the humanistic sciences and one doctor.

Participants of the different number of modules passed the Master course.

The group consists of several editions of the basic course, therefore, unable to save the first group of master course at such a difficult economic time.

For 30 hours were considered theoretical issues:

- Positive access and working with contents in the first interview:
- Positive function of disorders and diseases.
- Training another view of disorders - positive and transcultural, language pictures and sayings. Inventory of four areas of health, energy and conflict reaction.
- Macrotraumatic situations and psychosomatic reactions.
- Role of the actual conflict. Assessment of diagnose.
- Psychodynamics and report writing.
- Innovative techniques in Positive Psychotherapy (transcultural examples, change of point of view, situation control, organ training, observational calendar, psycho vampires, actual capacities hierarchies, DAI, misunderstandings).
- Psychodynamics and working with the standardized WIPPF questionnaire.
- Acting out of problems and solving by playing.
- Psychodramatic process and steps of action.
- Relaxation techniques in Positive Psychotherapy.

Much attention was paid to deep personal work.

Participants discovered the specificity of work with WIPPF.

Students got a new motivational impetus to continue their studies in master course.

Feedback from participants was very good.
