V. World Congress for Positive Psychotherapy  
October 9th – 12th 2010, Istanbul, Turkey

“Positive Psychotherapy in a globalized world”  
Trans-cultural and emotional perspective of Positive Psychotherapy in Globalization

September 2009 - First Announcement

Dear Colleagues, dear Guests!

We are glad to invite you to the 5th World Congress for Positive and Transcultural Psychotherapy. The congress will take place from October 9th – 12th 2010 in Istanbul, Turkey.

Istanbul is an extraordinary exciting old city which has rich historical and cultural inheritance of different ancient civilizations living together in harmony. It is not only a natural bridge between east and west but also a meeting point between contemporary cultures of east and west, south and north of our world.

During this 5th world congress, physicians, psychotherapists, psychologists and all those who work in the social field and mental health will have valuable opportunity to discuss with colleagues from more than 20 countries about the application and development of Positive Psychotherapy. We expect participants from different cultural backgrounds, psychotherapeutic schools and fields of human endeavor.

The scientific program will feature national and international speakers, plenary sessions, seminars, workshops, mini workshops and lectures. We invite all of you to support this event and to actively participate in this scientific congress.

In our days, with a new spirit of times, we are facing the challenge to give our discipline a new direction, in which we together can find adequate solutions to the actual human needs.

It will be a great pleasure for us to meet with you in Istanbul, Turkey by this occasion.

Best regards,

**Rukiye Hayran M.D.**  
Psychiatrist-Psychotherapist  
Director of Positive  
Psychotherapy Center Istanbul
